CONSIDERED BUILDING? IF SO, IN VICTORIA IT COSTS LESS TO BUY THE BEST IN CONSTRUCTION
This is what a former NHA inspector says:
"Undoubtedly Vickery Construction builds the best house in Victoria."
This has been said before by unbiased people who are continually inspecting homes but because of their positions they are not permitted to make public statements. The Vickery house is not only the best house, it also costs less. 3-bedroom homes at $10.50 per square foot. It costs less because the large discounts obtained by quantity purchases are passed on to you. Its efficiency savings resulting from job specialization are passed on to you. For example, a carpenter can produce a better cabinet in less time if he does nothing else but build cabinets. This same type of specialization is operated in each phase of the construction of a Vickery home. Consider the other savings.
A choice of over 200 plans—Free. A legal contract—Free.
Plus the most extensive services to help you.
NHA funds.
According to the Financial News there is a shortage of NHA funds. We are fortunate to have a good sum of NHA moneys.
Did you ever stop to think how unusual it is for a Real Estate firm to tell the public in print about the construction company it represents? Frankly we are very proud of the achievements of Vickery Construction. Our representatives will show you our homes under construction and bring some of the plans to your home for you to peruse. Also we have the greatest selection of building lots in Victoria. Phone EV 5-2458 Now—anytime.
Even if you own a home and are considering selling, talk to our representative.
